EDUCATION

Information and software integration engineering , university M'hamed Bougara of Boumerdes , Boumerdes

January 2019 - August 2023

- I graduated from Mohamed Bougherra University in Boumerdes, where I gained a solid foundation in programming. This education provided me with the skills needed to excel in this field

Computer technology (IT), university M'hamed Bougara of Boumerdes , Boumerdes

January 2023 - current

- I am currently pursuing a Master's degree in it, with a special focus on enhancing my skills, especially in the field of web development, using technologies such as React and Next.js.

High school diploma

January 2016 - August 2019

- I graduated high school with a strong focus in mathematics and physics, which provided me with a solid foundation for my academic and professional endeavors.

INTERNSHIPS

Full stack intern at Sonatrach , Boumerdes

January 2023 - January 2023

- I worked as a full-stack intern at Sonatrach, one of the leading Algerian companies, contributing to the development of a tailor-made project management platform known as ProjectFlow. This experience allowed me to actively support the company's operations and improve its project management capabilities.
